Comments

These tasks test your grasp of vocabulary in terms of collocation, appropriacy and idioms. They also test your ability to understand written and spoken English. If you got less than 75% of the answers right, or had to resort extensively to a dictionary, or took more than 90 minutes to complete the tasks, it's probably the case that you haven't had enough exposure to English and you might not have a good enough level to complete the course. That said, none of this is written in stone, and you may feel that want to apply anyway, in which case get in touch with me and we can discuss it.
